Dear Prof. Howey,

I'm Hsien-Ching Chung, an engineer and researcher in battery energy storage systems (BESS). Also a senior member of IEEE. Recently, I've prepared a preprint and want to submit it to arXiv. However, the system told me that "Endorsement needed for eess.SY."

Please help me to overcome the endorsement issue.

The endorsement information is listed at last.

Thank you very much.

Best regards,

Dr. Hsien-Ching Chung

Dear Dr Chung

I am happy to do this, but in order to do it I need to see the preprint you intend to submit. Could you send it to me please? I'll keep it confidential and delete it afterw

Thanks

Dave

Gmail - [arXiv issue][Call for help] Please help Dr. Hsien-Ching Chung overcome the endorsement issue in arXiv.

I'm glad to hear from you.

The preprint entitled "Long-term usage of the off-grid photovoltaic system with lithium-ion battery-based energy storage system on high mountains: A case study in Payiun Lodge on Mt. Jade in Taiwan" is attached.

It's a case report. The government asked me to do a complete evaluation of this battery system.

I know that arXiv wants to maintain its credibility. Hence, I chose to provide my full identity instead of just copying and pasting the endorsed code (that the arXiv system sent me).

Thank you very much for your help.

Best regards,

Hsien-Ching Chung

Dear Prof. Howey,

Thanks for your help in arXiv endorsement.

The preprint entitled "Long-term usage of the off-grid photovoltaic system with lithium-ion battery-based energy storage system on high mountains: A case study in Payiun Lodge on Mt. Jade in Taiwan" has been published in arXiv (<https://arxiv.org/abs/2405.04225>).

Thank you very much, again.

Have a nice day! ^ _ ^
